WASTE MANAGEMENT'S AT YOUR DOOR SPECIAL COLLECTION® SERVICE

STATEMENT OF WORK

The following sets forth the description of Waste Management’s At Your Door Special Collection® service, which will provide the on-demand year-round residential household hazardous waste collection service.

DESCRIPTION OF QUALITY SERVICE

Waste Management’s At Your Door Special Collection® service is provided to residents to properly manage household hazardous waste including electronics by safely collecting these items at the home. When residents need to dispose of their unwanted eligible materials they can reach out and schedule a home collection appointment. For residents to participate in this service, they must first schedule a home collection, which is available year-round. Waste Management provides two easy options to schedule service: The participant may go to www.wmatyourdoor.com or contact our Operations Service Center through our phone number. The Operations Service Center staff from our U.S. based Operations Center will process the service request. The website is accessible 24/7 and the Operations Service Center is available Monday through Friday.

As part of the request for service, the participant is provided with a specific date for their home collection. This is the date when they must place their unwanted materials at the front door or in the front of their garage. This is a demand based service, so the frequency of collections will vary.

After the resident schedules their collection, a collection kit will be sent to them. The resident is responsible to package the materials and place them out on the designated collection date. The collection kit consists of a plastic bag, tie, labels, and an instruction sheet. The instruction sheet informs the participant of their collection date and lists eligible and non-eligible items. Participants collect their items and place appropriate items inside the kit bag or beside it per the instruction sheet. All containers must be labeled, and they cannot leak. If a container leaks, the participant is instructed to transfer contents to a non-leaking container and label it. Participants are provided labels for this use. Leaking containers or containers that are not identified or are improperly identified will not be collected. Additional instructions may apply based on applicable regulations.

Participants will receive one bag unless otherwise indicated that more than one bag is required to collect all eligible materials. Participants that only have electronics, batteries and fluorescent lamps will not be sent a collection kit, as the kit is not required for those items. Participants are not required to be present during the collection.

On the collection date, a Service Technician will arrive at the home, inspect the material for eligible items, and package the material based upon hazard classification. All materials must be placed outside of the home in the appropriate easy-to-find location. Materials are to be placed near the front door area or garage area, but never on public property, at the curb, street or alleyway. The Waste Management Service Technician will not enter the premises, which include homes, garages or sheds to gather or remove any material.

After collection by the Service Technician, eligible materials are transported away from the residence and sent to the appropriate recycling and processing facilities. WM is not responsible for any materials placed out for collection until the items are collected by Waste Management personnel.

CUSTOMER SERVICE

Waste Management’s At Your Door Special Collection® Operations Service Center (aka call center) will handle any questions and process the service requests. To contact this service center, residents can call 1-800-440-758, go to www.wmatyourdoor.com or email atyourdoor@wcm.com. If a resident has a question about a particular item, they are welcome to reach out to our staff. This center handles thousands of service requests each year. Our website provides list of commonly acceptable items, frequently asked questions and a way to reach out to our service center. Our goal is to make it easy and convenient for your residents.

Residents who participate in the program receive a survey questionnaire. The survey typically includes several questions and is considered a "report card" on the service. Depending upon community and online resources, feedback could be conducted through an online survey feature and/or a postage-paid survey card. All participants are encouraged to provide feedback. The At Your Door Special Collection® has surveyed program participants for many years, as this is an important feature of providing quality customer service. The results of the surveys are sent to the municipal contact.

QUALIFICATIONS

From our Service Technicians to our Operations Service Center Specialists, all team members participate in Waste Management’s in-depth and on-going training process. Service Technicians must complete the 40 hour HAZWOPER certification program in combination with obtaining a Hazmat endorsement on their Commercial Driver’s License. In addition, they will complete an in-depth employee training program which includes classroom and on-the-job training for hazardous materials. Training is updated periodically to ensure our Technicians are trained on important safety procedures, transportation protocols, chemistry, hazardous materials handling, customer service, and more.

Waste Management’s At Your Door Special CollectionSM service has extensive experience working with municipalities and regulatory organizations implementing home generated special materials/household hazardous waste residential collection programs that comply with federal, state and local regulations. Over the years, we have refined the challenging process of residential collection of home generated special materials. Our experience with numerous municipalities and hundreds of thousands of residents will be applied to your community.

SAFETY

This program will comply with existing applicable federal, state, and local regulations. Appropriate permits and approvals to transport and store household hazardous waste and electronics will be obtained and maintained. This includes facilities and vehicles used in the process of servicing this program. Generator status and requirements will be determined based on applicable state, federal or local laws.

In the event of a change in law and/or regulations related to the services provided under this Agreement, Waste Management has the option to modify this service. This may include the imposition of new or increased government fees or assessments, and Waste Management shall be entitled to an adjustment of rates at any time. This request for adjustment will be submitted by Waste Management to the appropriate municipality’s contact, accompanied by an analysis of the impacts on rates. A “change in law” adjustment shall only be effective after approval of the municipality’s governing body. The municipality’s action on our request shall be made within sixty (60) days from the date of submittal, and its approval will not be unreasonably delayed, conditioned, or withheld. As used herein, “change of law” does not include changes in federal or state income tax laws.

In the event of a natural disaster affecting the community, Waste Management’s At Your Door Special Collection program will be suspended for a period of up to six months, or another period upon mutual agreement. The At Your Door program is designed for the ordinary collection of home generated special materials, and a natural disaster changes the nature of that need. A natural disaster is subject to the specifics of a franchise agreement.
