INDEPENDENT AUDITORS' REPORT

July 13, 2015

The Honorable Village President
Members of the Board of Trustees
Village of Maple Park, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Maple Park, Illinois, as of and for the year ended April 30, 2015, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Maple Park, Illinois, as of April 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Maple Park, Illinois', financial statements as a whole. The introductory section, combining and individual fund financial statements and budgetary comparison schedules, and supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements.

The individual fund financial statements and budgetary comparison schedules and supplemental schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the individual fund financial statements and budgetary comparison schedules and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

LAUTERBACH & AMEN, LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Village of Maple Park, Illinois (the "Village") offers readers of the Village's financial statements this narrative overview and analysis of the financial activities of the Village for the fiscal year ended April 30, 2015. This discussion and analysis is designed to (1) assist the reader in focusing on significant financial issues, (2) provide an overview of the Village's financial activity, (3) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges), (4) identify any material deviations from the financial plan (the approved appropriation), and (5) identify individual fund issues or concerns.

USING THE FINANCIAL SECTION OF THIS REPORT

Historically, the primary focus of local government financial statements has been summarized fund type information on a current financial resource basis. This approach has been modified by Government Accounting Standards Board (GASB) Statement No. 34. As a result, the Village's financial statements now present two kinds of statements, each with a different snapshot of the Village's finances. The focus of the new financial statements is on both the Village as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the Village's accountability.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business. The focus of the Statement of Net Position presents information on all of the Village's assets and liabilities/deferred inflows, with the difference between the two reported as net position. This statement combines and consolidates governmental fund's current financial resources (short-term spendable resources) with capital assets and long-term obligations using the accrual basis of accounting and economic resources management focus. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future.

Both of the government-wide financial statements (see pages 3 - 5) distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Village reflect the Village's basic services, including administration, public safety, parks and grounds, community development, and highways and streets. The business-type activities include the operations of the water system and the sewer system.

Fund Financial Statements
Traditional users of governmental financial statements will find the fund financial statements to be more familiar. The focus of presentation is on major funds rather than fund types. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The Village does not currently maintain any fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund, Utility Tax Fund, Motor Fuel Tax Fund, and the Road and Bridge Fund, each of which is considered to be a "major" fund. Data from the other governmental fund, the TIF District Fund, is presented in a separate column as a "non-major" fund. Individual fund data for this non-major governmental fund is provided elsewhere in the report.

The Village adopts an annual appropriation for each of its governmental funds. A budgetary comparison schedule has been provided elsewhere in the report to demonstrate compliance with the appropriation. The basic governmental fund financial statements can be found on pages 6 - 11 of this report.

Proprietary Funds – The Village maintains one proprietary fund. The Water & Sewer Fund is used to report the same type of information as presented as business-type activities in the government-wide financial statements, only in more detail. The enterprise fund is used to account for the operations of the Village's water and sewer system. The Water & Sewer Fund is considered to be a major fund of the Village.

The basic proprietary fund financial statements can be found on pages 12 - 14 of this report. Budgetary information for the Water & Sewer Fund, including sub-accounts for operations, water system improvements, and sewer system improvements is provided elsewhere in the report.

Fiduciary Funds – Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Village of Maple Park's own programs. The basis of accounting used for fiduciary funds is much like that used for proprietary funds.

The Village maintains one fiduciary fund. The Developer Fund is used to report contributions received from developers who are interest in pursuing development projects within the Village or that may be annexed to the Village. The basic fiduciary fund financial statement can be found on page 15 of this report.

Infrastructure Assets
Historically, a government's largest group of assets (infrastructure assets – roads, bridges, storm sewers, etc.) have not been reported nor depreciated in governmental financial statements. GASB Statement No. 34 requires that these assets be valued and reported within the Governmental Activities column of the government-wide statements. Additionally, the government must elect to: (1) depreciate the assets over their useful life; or (2) develop a system of asset management designed to maintain the service delivery potential to near perpetuity (modified approach). The Village has chosen to depreciate assets over the useful life. If a road project is considered maintenance - a recurring cost that does not extend the original useful life or expand its capacity- the cost of the project will be expensed. An "overlay" of a road will be considered maintenance whereas a "rebuild" of a road will be capitalized.

Notes to the Financial Statements
The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 16 - 34 of this report.

Other Information
In addition to the basic financial statements and accompanying notes, this report also presents individual fund statements and schedules of revenues and expenditures for the General Fund and major special revenue funds. These individual fund statements and schedules can be found on pages 35 - 61 of this report.

Additionally, certain supplemental schedules containing more detailed information on long-term debt, debt coverage, certain water and sewer system statistics, and property tax levies and assessed valuations can be found on pages 62 - 69.

GOVERNMENT-WIDE STATEMENTS

Net Position

Net position may serve over time as a useful indicator of a government's financial position. The following table shows the net assets of the Village of Maple Park as of April 30, 2015.

The largest portion of the Village's net position (71%) reflects its investment in capital assets less any related outstanding debt used to acquire those assets. Approximately 4% of net position represents resources subject to restrictions on how they may be used, and about 24%, or $1,328,610, represents unrestricted net position and may be used to meet the Village's ongoing obligations. During the fiscal year ended April 30, 2015, net position of governmental activities increased $85,481 and business-type assets increased $32,974 for an overall increase of $118,455.

Table 1
Statement of Net Position
As of April 30, 2015 and 2014

	Governmental Activities		Business-Type Activities		Total Primary Government	
	2015	2014	2015	2014	2015	2014

NORMAL FINANCIAL IMPACTS

There are eight basic impacts on revenues and expenses as reflected below:

Revenues

Economic condition – This can reflect a declining, stable, or growing economic environment and has a substantial impact on sales, income, and utility tax revenue, as well as, on public spending for building permits, elective user fees, and consumption volumes.

Increase/Decrease in Village approved rates – While certain tax rates are set by statute, the Village Board has certain authority to impose and periodically increase or decrease rates (water and sewer rates, permit fees, property tax rates, and certain other local taxes, etc.).

Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring) – Certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring or one-time grants are less predictable and often distort their impact on year-to-year comparisons.

Market impacts on investment income – The Village's cash management program is managed using a similar maturity to most other local governments. Market conditions may cause investment income to fluctuate.

Expenses

Introduction of new programs – Within functional expense categories, individual programs may be added or deleted in order to meet the changing needs of the Village.

Changes in authorized personnel – Changes in service demand may cause the Village Board to increase or decrease staffing levels. Personnel costs are one of the Village's significant operating costs.

Salary increases (annual adjustments and merit) – The ability to attract and retain quality personnel requires the Village to strive to have competitive salary ranges and pay practices.

Inflation – While overall inflation has been reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuels and repair parts. Some functions may experience unusual commodity specific increases.

CURRENT YEAR FINANCIAL IMPACTS

Governmental Activities

Revenues – Total revenues for the Village's governmental activities for the fiscal year ended April 30, 2015 were $853,974, including $22,900 in capital grants and contributions that were or will be expended for community development purposes.

The revenue mix, exclusive of the grants received in the fiscal year ended April 30, 2015, represents a relatively diverse revenue base with about 22.3% of revenues provided by services charges, 29.7% from property taxes, 22.2% from state shared revenues, 10.2% from utility taxes, 13.4% from sales tax, and about 2.2% coming from other sources.

Utility taxes (5% on natural gas and electric) and a telecommunications tax of 5% contributed $80,626 to governmental activities, a decrease of $2,473, or 3.0% from the previous year. The 2013 property tax levy, collected in the 2014/2015 fiscal year, was "capped" for non-home rule municipalities at 1.7%. However, with the TIF District, the actual increase in property taxes was $5,124, or 2%.

Sales tax revenues of $105,733 were up $17,021, or about 19.2% in the fiscal year ended April 30, 2015.

Expenses – Total expenses for the Village's governmental activities for the fiscal year ended April 30, 2015, were $697,917. As required by GASB Statement No. 34, total expenses include depreciation but it excludes expenses for capital assets.

The largest functional expense was general government at $348,380. This amount was followed by $203,113 for public safety, $91,422 for highways and streets, $47,865 for parks & grounds, and $7,137 for community development. In addition to total expenses of $697,917, $59,000 was transferred to the Water and Sewer Fund for debt service on the IEPA Installment Loan L17-1438 and $11,576 was transferred to the Water Improvement Fund for debt service on the ARRA Loan. Overall, total revenues in governmental activities exceeded total expenses and transfers by $85,481.

Business-Type Activities

Revenues – Total revenues for the Village's business-type activities for the fiscal year ended April 30, 2015 were $338,644. This amount included $338,396 for water and sewer charges and $248 for miscellaneous and interest income. Charges for water and sewer service provided about 90% of total related business-type expenses, including depreciation of $132,584.

Expenses – Total expenses, including depreciation, for the Village's business-type activities for the fiscal year ended April 30, 2015, were $376,246.

During the year, net position of business-type activities increased $32,974.

FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

As noted earlier, the Village of Maple Park uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of April 30, 2015, the governmental funds (as presented on the balance sheet on pages 6 - 7) had combined fund balances of $1,027,627. This represents an overall increase of $49,634 from the prior year fund balances. The General Fund increased $10,424, the Utility Tax Fund decreased $10,259, the Motor Fuel Tax Fund increased $31,544, and the Road and Bridge Fund increased $17,925. The Utility Tax Fund, the Motor Fuel Tax Fund, and the Road and Bridge Fund are major funds of the Village. The nonmajor governmental fund, TIF District Fund reported revenues of $6,712 and expenditures of $7,137 during this fiscal year with a fund transfer offset for the difference of $425, resulting in ending fund balance of $0.

The revenues of the Village have been impacted by the stagnation in the general economy and especially by the slow-down in the residential housing market. The Village had anticipated the start up of two major housing developments during the 2008/2009 fiscal year, but these have been put on hold until the economy improves.

Although the available balances of each of the Village funds appears to be adequate as of April 30, 2015, the General Fund and the Water and Sewer Operating Fund will be monitored closely during the 2015/2016 fiscal year.

The following table shows the appropriation amounts and the actual revenues and expenditures for the General Fund:

Table 3
General Fund Appropriation Highlights
For the Fiscal Year Ended April 30, 2015
(With Comparative Actual for 2014)

	2014			
	Original Budget	Final Budget	Actual	2013 Actual
Revenues				
Taxes	$ 453,454	$ 453,454	$ 483,603	$ 441,621
Licenses and Permits	16,310	16,310	20,769	16,433
Charges For Services	129,748	129,748	130,018	129,037
Fines and Forfeits	5,750	5,750	1,960	6,491
Interest	100	100	37	41
Miscellaneous	4,500	4,500	16,552	10,916
Total Revenue	609,862	609,862	652,939	604,539
Expenditures				
General Government	328,831	328,831	312,706	306,859
Public Safety	204,929	204,929	195,930	187,720
Parks and Grounds	49,180	49,180	47,865	44,636
Highways and Streets	101,330	101,330	86,014	90,561
Total Expenditures	684,270	684,270	642,515	629,776
Net Change In Fund Balance	$ (74,408)	$ (74,408)	10,424	(25,237)
Fund Balance - Beginning			263,709	288,946
Fund Balance - Ending			$ 274,133	$ 263,709

Total revenues in the General Fund were $43,077 over the amount budgeted, and also expenditures were $41,755 less than the fund appropriation, resulting in an overall increase in fund balance of $10,424.

The fund balance of the General Fund of $274,133 compared to the total expenditures of $642,515 represents a fund balance to expenditures ratio of 43%. A fund balance to expenditures ratio of 25% in a municipality the size of Maple Park indicates a reasonably good financial position.

CAPITAL ASSETS

The following schedule reflects the Village's capital asset balances as of April 30, 2015.

Table 4
Capital Assets
As of April 30, 2015
(With Comparative Actual for 2014)

	2015			
	Governmental Activities	Business-Type Activities	Total	2014 Total
Land	$ 262,150	$ 80,500	$ 342,650	$ 342,650
Construction In Progress	12,014	-	12,014	1,308
Building and Improvements	617,349	1,009,498	1,626,847	1,580,172
Equipment and Vehicles	149,129	665,662	814,791	798,513
Infrastructure	671,133	-	671,133	645,417
Water System	-	2,762,089	2,762,089	2,762,089
Sewer System	-	1,904,269	1,904,269	1,904,269
	1,711,775	6,422,018	8,133,793	8,034,418
Less:				
Accumulated Depreciation	501,860	2,521,148	3,023,008	2,826,896
Total Capital Assets	$ 1,209,915	$ 3,900,870	$ 5,110,785	$ 5,207,522

At year-end, the Village's investment in capital assets (net of accumulated depreciation) for both its governmental and business-type activities was $5,110,785 (see note 3 in the Notes to the Financial Statements for further information regarding capital assets). During the fiscal year ended April 30, 2015, Washington Park Roofs were replaced for $5,700, the Police Department purchased new computers with mounts for the squads for $8,291, tuckpointing was done on the Civic Center for $8,500, a lawn mower was purchased for $7,987, a wheelchair lift was installed at the Civic Center for a total project cost of $32,475, a Stormwater Project was completed on Willow Street for a total project cost of $25,716. These were added to the capital assets of government activities. There was an MFT Paving Project that began this year and was in progress at the end of the fiscal year. This project should be completed in the 2015/2016 fiscal year. Additional information on the Village's capital assets can be found on pages 26 – 27 of the notes to the financial statements.

LONG-TERM DEBT

The Village of Maple Park had total long-term debt of $1,231,190 outstanding as of April 30, 2015. This total consisted of a General Obligation Alternate Revenue Bond of $65,466, an IEPA Installment Loan for water purposes of $422,960, an IEPA Installment Loan for sewer purposes of $198,164, and an IEPA Installment Loan for water purposes of $544,600. The table below summarizes the Village's outstanding long-term debt.

Table 5
Long-Term Debt
As of April 30, 2015
(With Comparative Actual for 2014)

	2015			
	Governmental Activities	Business-Type Activities	Total	2014 Total
2010 General Obligation Bonds	$ -	$ 65,466	$ 65,466	$ 75,162
IEPA Installment Loan L17-143800	-	422,960	422,960	469,784
IEPA Installment Loan L17-033400	-	198,164	198,164	251,252
IEPA Installment Loan L17-337500	-	544,600	544,600	566,524
Total Long-Term Debt	$ -	$ 1,231,190	$ 1,231,190	$ 1,362,722

The Village is currently using Utility Tax Fund revenue to pay the IEPA installment loan L17-1438 and the 2010 General Obligation Bond, and water and sewer revenues to pay the annual debt service for the IEPA installment loan L17-033400 and IEPA installment loan L17-337500. Additional information on the Village's long-term debt can be found on pages 29 – 31 of the notes to the financial statements.

ECONOMIC FACTORS

One of the potential factors for increasing economic activity in the Village and nearby areas is an interest in residential development. Maple Park is in the path of prior trends of residential growth moving West from the Fox River Valley. Developments within the Village have generated good interest from potential home buyers, and new developments have been planned that could add over 1,000 residential units to the Village when the economy improves.

The influence of residential building on the local economy is more than just the amount of permit-type revenues the Village receives. Additionally, new water and sewer fees, utility taxes, property taxes, water and sewer tap-on fees, and contributions for special projects are all increased with new residents in the Village. Also, each new resident as well as residents from nearby communities add to the sales tax base for Maple Park merchants.

CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Village's finances and to demonstrate accountability for the money it receives. Questions concerning this report or requests for additional financial information should be directed to: Village Clerk, Village of Maple Park, 302 Willow Street, P.O. Box 220, Maple Park, Illinois 60151.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

    Governmental Funds

    Proprietary Funds

    Fiduciary Fund

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Maple Park (Village), Illinois, established in 1901, is a municipal corporation governed by an elected President and six-member Board of Trustees. The Village's major operations include public safety, highway and street maintenance and reconstruction, public improvements, planning and zoning, water and sewer services and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the Village's accounting policies established in GAAP and used by the Village are described below.

REPORTING ENTITY

In determining the financial reporting entity, the Village complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the Village. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The Village's basic financial statements include both government-wide (reporting the Village as a whole) and fund financial statements (reporting the Village's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The Village's public safety, highway and street maintenance and reconstruction, building code enforcement, public improvements, economic development, planning and zoning, and general administrative services are classified as governmental activities. The Village's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column, and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The Village's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The Village first utilizes restricted resources to finance qualifying activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Government-Wide Statements – Continued

The government-wide Statement of Activities reports both the gross and net cost of each of the Village's functions (general government, public safety, parks and public property, etc.) and business-type activities. The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (general government, public safety, highways and streets, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property tax, sales tax, intergovernmental revenues, interest income, etc.).

This government-wide focus is more on the sustainability of the Village as an entity and the change in the Village's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the Village are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

Nonmajor funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The Village electively added funds, as major funds, which had a specific community focus. The nonmajor funds are combined in a column in the fund financial statements.

A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

> Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements – Continued

> Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the Village:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Village:

General Fund is the general operating fund of the Village. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Village maintains three major special revenue funds, the Utility Tax Fund, the Motor Fuel Tax Fund and the Road and Bridge Fund. Additionally, the Village maintains one nonmajor special revenue fund, the TIF District Fund. The Utility Tax Fund is used to account for the resources received from a 5% utility tax on electricity and natural gas and a share of a State administered telecommunications tax. The resources are used for special Village projects. The Motor Fuel Tax Fund is used to account for funds received from the State of Illinois Motor Fuel Tax to be used for operating and maintaining local streets and roads. The Road and Bridge Fund is used to account for the resources received from a road & bridge property tax, local vehicle license fees, and interest income. The resources are used for street maintenance and construction projects. The Utility Tax Fund reports utility taxes as the major revenue source for the fund which is committed to community development. The Motor Fuel Tax Fund reports motor fuel tax as the major revenue source for the fund which is restricted to highways and streets.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the Village:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements – Continued

Enterprise Funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Village maintains one major enterprise fund, the Water and Sewer Fund, which is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, improvements and extensions, financing and related debt service, billing and collection.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support Village programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Agency Funds are used to account for assets held by the Village in a purely custodial capacity. The Developer Fund is used to account for contributions received from developers who are interested in pursuing development projects within the Village or that may be annexed to the Village. Village ordinances require that the developer pay for all associated planning, legal, and engineering costs. The Developer Fund also receives and disburses certain recapture amounts pursuant to prior developer agreements.

The Village's agency fund is presented in the fiduciary fund financial statements. Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Village, these funds are not incorporated into the government-wide statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Measurement Focus

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below. In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The Village recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70. A sixty day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest, if any, which are recognized when due.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Basis of Accounting – Continued

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise taxes, licenses, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary and agency funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Village's enterprise funds are charges to customers for sales and services. The Village also recognizes as operating revenue the portion of tap-on fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have any established market, if any, are reported at estimated fair value.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include property taxes, sales and use taxes, utility taxes, and charges for refuse disposal. Business-type activities report utility charges as their major receivables.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Prepaids

Prepaids are valued at cost, which approximates market. The cost of governmental fund-type prepaids are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Equipment and vehicles purchased or acquired with an original cost of $5,000 or more and infrastructure improvements of $20,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the Village as a whole. Infrastructure such as streets, traffic signals and signs are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs. Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated. Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Buildings and Improvements	10 - 50 Years
Vehicles and Equipment	5 - 30 Years
Water and Sewer Distribution System	20 - 50 Years

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

> Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
>
> Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.
>
> Unrestricted – All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

All departments of the Village submit requests for budgets so that an appropriation ordinance may be prepared. The appropriation ordinance is prepared by fund and function, and includes requested appropriations for the next fiscal year.

The proposed appropriation ordinance is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations. All appropriations are adopted on a basis consistent with generally accepted accounting principals (GAAP). The appropriation ordinance may be amended by the governing body. Expenditures may not legally exceed appropriation allocations at the fund level. The appropriation lapses at the end of each fiscal year.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued

COMPLIANCE WITH APPROPRIATION

The following funds had excess expenditures over appropriations:

Fund	Appropriation	Expenditures	Excess
Utility Tax	$ -	$ 43,138	$ 43,138
TIF District	5,100	7,137	2,037

NOTE 3 – DETAIL NOTES ON ALL FUNDS

PROPERTY TAXES

Property taxes for 2014 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

DEPOSITS AND INVESTMENTS

The Village maintains a cash and investment pool that is available for use by all funds except the Motor Fuel Tax Fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds.

Permitted Deposits and Investments – Statutes authorize the Village to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services and Illinois Funds.

Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. Although not registered with the SEC, Illinois Funds does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits. At year-end, the carrying amount of the Village's deposits for governmental and business-type activities totaled $351,331 and the bank balances totaled $379,604. Additionally, the Village has $1,095,968 invested in the Illinois Funds.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Village officials recognize that safety of principle is the foremost objective of the Village's investment program. Officials additionally follow the principle that the investment portfolio will remain sufficiently liquid to enable the Village to meet all operating requirements which might be reasonably anticipated. Finally, the investment program has been designed with the objective of attaining a market rate of return throughout budgetary and economic cycles. All Village investment transactions must be specifically approved by the Finance Committee of the Village Board of Trustees. The Village's investment in the Illinois Funds has an average maturity of less than one year.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Accordingly, the Village's investment portfolio only includes securities authorized under State Statute. The Village's investment in the Illinois Funds was rated AAAm by Standard & Poor's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the Village's deposits may not be returned to it. All funds on deposit in banks in excess of FDIC limits should be secured by some form of collateral. Furthermore, pledged collateral should be held by the Village or in safekeeping evidenced by a safekeeping agreement. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Village's investment policy requires collateral on all funds on deposit in banks in excess of the FDIC insurance. At year-end all deposits were covered by FDIC insurance or collateral held by the Village or in safekeeping in the Village's name.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the Village's investment in a single issuer. The Village's investment policy recommends diversification to minimize this risk. However, the Village does not require diversification for funds on deposit with a financial institution that are covered by FDIC insurance or collateral. At year-end, the Village maintained deposit accounts with two banks and the Illinois Funds: 21.1% of deposits were with Old Second Bank – Kane County; 3.2% with National Bank & Trust Company of Sycamore, Illinois, and 75.7% with Illinois Funds.

CAPITAL ASSETS

Governmental Activities

Governmental capital asset activity for the year was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Nondepreciable Capital Assets				
Land	$ 262,150	$ -	$ -	$ 262,150
Construction in Progress	1,308	12,014	1,308	12,014
	263,458	12,014	1,308	274,164
Depreciable Capital Assets				
Buildings and Improvements	570,674	46,675	-	617,349
Equipment	31,630	7,987	-	39,617
Vehicles	101,221	8,291	-	109,512
Infrastructure	645,417	25,716	-	671,133
	1,348,942	88,669	-	1,437,611
Less Accumulated Depreciation				
Buildings and Improvements	306,131	35,675	-	341,806
Equipment	11,485	2,585	-	14,070
Vehicles	71,904	9,597	-	81,501
Infrastructure	48,812	15,671	-	64,483
	438,332	63,528	-	501,860
Total Net Depreciable Capital Assets	910,610	25,141	-	935,751
Total Net Capital Assets	$ 1,174,068	$ 37,155	$ 1,308	$ 1,209,915

Depreciation expense was charged to governmental activities as follows:

General Government	$ 35,674
Public Safety	7,183
Highways and Streets	20,671
	$ 63,528

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

CAPITAL ASSETS – Continued

Business-Type Activities

Business-type capital asset activity for the year was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
Nondepreciable Capital Assets				
Land	$ 80,500	$ -	$ -	$ 80,500
Depreciable Capital Assets				
Buildings & Improvements	1,009,498	-	-	1,009,498
Vehicles and Equipment	665,662	-	-	665,662
Water Distribution System	2,762,089	-	-	2,762,089
Sewer Distribution System	1,904,269	-	-	1,904,269
	6,341,518	-	-	6,341,518
Less Accumulated Depreciation				
Buildings & Improvements	699,241	13,393	-	712,634
Vehicles and Equipment	276,448	20,182	-	296,630
Water Distribution System	835,272	60,923	-	896,195
Sewer Distribution System	577,603	38,086	-	615,689
	2,388,564	132,584	-	2,521,148
Total Net Depreciable Capital Assets	3,952,954	(132,584)	-	3,820,370
Total Net Capital Assets	$ 4,033,454	$ (132,584)	$ -	$ 3,900,870

Depreciation expense was charged to business-type activities as follows:

Water Division	$ 86,431
Sewer Division	46,153
	$ 132,584

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

INTERFUND TRANSFERS

Interfund transfers for the year consisted of the following:

Transfer In	Transfer Out	Amount
Water and Sewer	Utility Tax	$ 70,576
Nonmajor Governmental	Utility Tax	425
		$ 71,001

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

LONG-TERM DEBT

IEPA Installment Loans

The Village obtained three Illinois Environmental Protection Agency installment loans, two for the construction of a new well and a water treatment plant and one to extend sanitary sewer lines within the Village. IEPA installment loans are as follows:

Issue	Fund Debt Retired by	Beginning Balances	Issuances	Retirements	Ending Balances
Illinois Environmental Protection Agency Installment Loan L17-143800 due in semi-annual installments of $29,540.04 through March 11, 2023. Interest is included in the above installment payments at 2.675%.	Water and Sewer	$ 469,784	$ -	$ 46,824	$ 422,960
Illinois Environmental Protection Agency Installment Loan L17-033400 due in semi-annual installments of $29,954.27 through May 12, 2018. Interest is included in the above installment payments at 2.865%.	Water and Sewer	251,252	-	53,088	198,164
Illinois Environmental Protection Agency Installment Loan L17-337500 due in semi-annual installments of $37,104.70 through November 17, 2032. Interest is included in the above installment payments at 2.295%.	Water and Sewer	566,524	721	22,645	544,600
		$ 1,287,560	$ 721	$ 122,557	$ 1,165,724

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

LONG-TERM DEBT – Continued

General Obligation Bonds

The Village issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

Issue	Fund Debt Retired by	Beginning Balances	Issuances	Retirements	Ending Balances
Taxable General Obligation Alternate Revenue Bonds of 2010, due in annual installments of $9,351 to $12,056 plus interest at rate of 1.15% to 4.80% through December 15, 2020.	Water and Sewer	$ 75,162	$ -	$ 9,696	$ 65,466

Debt Service Requirements to Maturity

The annual debt service requirements to maturity, including principal and interest, are as follows:

Fiscal Year	Business-Type Activities							
	General Obligation Refunding Bonds		IEPA Installment Loan L17-143800		IEPA Installment Loan L17-033400		IEPA Installment Loan L17-337500	
	Principal	Interest	Principal	Interest	Principal	Interest	Principal	Interest
2016	$ 9,948	$ 1,720	$ 48,085	$ 10,995	$ 54,619	$ 5,290	$ 24,747	$ 12,357

IEPA Installment Loan	566,524	721	22,645	544,600	24,747
	$ 1,362,722	$ 721	$ 132,253	$ 1,231,190	$ 137,400

NET POSITION/FUND BALANCES

Net Position Classifications

Net assets invested in capital assets net of related debt is calculated as follows at year-end:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	$ 1,209,915
Less Capital Related Debt:	
None	-
Net Investment in Capital Assets	$ 1,209,915
Business-Type Activities	
Capital Assets - Net of Accumulated Depreciation	$ 3,900,870
Less Capital Related Debt:	
Taxable General Obligation Alternate Revenue Bonds of 2010	(65,466)
IEPA Installment Loan - L17-143800	(422,960)
IEPA Installment Loan - L17-033400	(198,164)
IEPA Installment Loan - L17-337500	(544,600)
Net Investment in Capital Assets	$ 2,669,680

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

NET POSITION/FUND BALANCES – Continued

Fund Balances Classifications

In the governmental funds financial statements, the Village considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The Village first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Fund Balance Policy. The Village's fund balance policy states that the General Fund should have reserves equal to 25% of budgeted expenditures, less garbage collection expense.

Committed Fund Balance. The Village reports committed fund balance in the Utility Tax Fund a major fund. The Village's Board has committed the funds to future Village improvement projects through formal action (ordinance) by the Village Board. Formal Board action is required to establish, modify, or rescind a fund balance commitment.

The following is a schedule of fund balance classifications for the governmental funds as of the date of this report:

	General	Utility Tax	Motor Fuel Tax	Road and Bridge	Totals
Fund Balances					
Nonspendable - Prepaids	$ 3,784	$ -	$ -	$ -	$ 3,784
Restricted					
Highways and Streets	-	-	175,928	50,809	226,737
Committed					
Community Development	-	526,757	-	-	526,757
Unassigned	270,349	-	-	-	270,349
Total Fund Balances	$ 274,133	$ 526,757	$ 175,928	$ 50,809	$ 1,027,627

NOTE 4 – OTHER INFORMATION

RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the Village's employees. These risks are provided for through a limited self-insurance program. The Village currently reports all its risk management activities in the General Fund.

NOTE 4 – OTHER INFORMATION – Continued

RISK MANAGEMENT – Continued

The Village participates in the Illinois Municipal League Risk Management Association (IMLRMA). IMLRMA is an organization of municipalities and special districts in Illinois which have formed an association under the Illinois Intergovernmental Cooperation Statute to pool its risk management needs. The association administers a mix of self-insurance and commercial insurance coverage; property/ casualty and workers' compensation claim administration and litigation management service; risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

IMLRMA is governed by a board of directors made up of Illinois mayors and village presidents of municipalities who participate in the program. The Village does not exercise any control over the activities of IMLRMA beyond its representation on the Board of directors.

Annual contributions are determined each year by underwriters based on the individual member's exposure to loss and experience modification factors based on past member loss experience.

RETIREMENT OBLIGATIONS

The Village does not participate in either the Illinois Municipal Retirement Fund or a deferred compensation plan. Instead, employees are covered by social security.

CONTINGENT LIABILITIES

Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the Village's attorney that the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Village expects such amounts, if any, to be immaterial.

NOTE 4 – OTHER INFORMATION – Continued

OTHER POST-EMPLOYMENT BENEFITS

The Village has evaluated its potential other post-employment benefits liability. The Village does not have a health insurance policy and does not offer health insurance through the Village to current or retired employees. Therefore, there has been 0% utilization and, therefore, no implicit subsidy to calculate in accordance with GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*. Additionally, the Village had no former employees for which the Village was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the Village has not recorded any post-employment benefit liability as of April 30, 2015.

REQUIRED SUPPLEMENTARY INFORMATION

Required supplementary information includes financial information and disclosures that are required by the GASB but are not considered a part of the basic financial statements. Such information includes:

- Budgetary Comparison Schedule – General Fund

- Budgetary Comparison Schedules – Major Special Revenue Funds
  - Utility Tax Fund
  - Motor Fuel Tax Fund
  - Road and Bridge Fund

VILLAGE OF MAPLE PARK, ILLINOIS

a. **Budgets**

All departments of the Village submit requests for appropriation to the Finance Committee so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year. Annual appropriated budgets are adopted for the general, special revenue, and enterprise funds. All appropriations lapse at fiscal year end.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Village Board is authorized to transfer amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be formally approved by the governing body. Expenditures may not legally exceed budgeted appropriation at the fund level. The final budget figures included in this report do not include any amendments to the originally approved budget.

b. **Excess of Actual Expenditures Over Budget in Individual Funds**

Expenditures exceeded the appropriation (budget) in the Utility Tax Fund by $43,138 and the TIF District Fund by $2,037.

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules – General Fund
- Budgetary Comparison Schedule – Nonmajor Special Revenue Fund
  TIF District Fund
- Budgetary Comparison Schedules – Enterprise Fund
  Water and Sewer Fund
- Schedule of Changes in Assets and Liabilities – Agency Fund
  Developer Fund

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND

The General Fund accounts for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

To account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

Utility Tax Fund

The Utility Tax Fund is used to account for the resources received from a 5% utility tax on electricity and natural gas and a share of a State administered telecommunications tax. The resources are used for special Village projects.

Motor Fuel Tax Fund

The Motor Fuel Tax Fund is used to account for funds received from the State of Illinois Motor Fuel Tax to be used for operating and maintaining local streets and roads.

Road and Bridge Fund

The Road and Bridge Fund is used to account for the resources received from a road & bridge property tax, local vehicle license fees, and interest income. The resources are used for street maintenance and construction projects.

TIF District Fund

The TIF District Fund is used to account for the property tax revenue and expenses relating to a Tax Increment Financing District that was established in FY 2012.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

ENTERPRISE FUND

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

Water and Sewer Fund

The Water and Sewer Fund is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

AGENCY FUND

Developer Fund

The Developer Fund is used to account for contributions received from developers who are interested in pursuing development projects within the Village or that may be annexed to the Village. Village ordinances require that the developer pay for all associated planning, legal, and engineering costs. The Developer Fund also receives and disburses certain recapture amounts pursuant to prior developer agreements.
