The summer is in full swing and work continues in the Village of Maple Park. In June, the Village completed work on Pearl Street including a road resurfacing and stormwater project. Stormwater improvements were also made along Center Street. The Village completed the sidewalk along the east side of County Line Road. The sidewalk will connect to a crosswalk that will provide a safer place for everyone to cross County Line Road with a marked crossing. The work and planning for the new water tower continues. The groundbreaking for the tower will be in July with completion of the water tower next year. I hope everyone is enjoying their summer break!
