## **REVIEW MEMORANDUM**

Date: September 14, 2023  
To: Village of Maple Park  
From: Jeremy Lin  
Subject: Center St Drainage

The Village recently extended the storm sewer on Center St on the south side to County Line Rd. There was previously no storm sewer in this area to capture the runoff. While the storm sewer extension was an improvement, there is more tributary area and runoff coming from the railroad tracks and the adjacent south side property due to its long driveway and parking area. After meeting with the contractor, we are recommending an additional storm inlet, regarding and a short storm sewer extension to help drain this area more effectively. The proposal from Elliott & Wood is attached.
